

64th Annual Conference
Expo and Showcase: November 6, 2018
Speed Session Submission

New in 2018: Tuesday Vendor Expo at Deep Run Recreation Center

The Park Operations Resource Group is extending an additional opportunity for vendors this year to share their expertise in a given area of park operations.

These “speed sessions” are intended to offer attendees additional insights into operations, while highlighting the expertise and experience of our partnered vendors. These should last roughly 10-minutes. Please give us a brief description of your area of expertise and topic you’d like to speak on.

This opportunity is different than the conference Education Sessions.
Vendors who are interested in submitting proposals for education sessions may do so [online](#)
